

Climate Change & Philanthropy

While it affects everyone, climate change disproportionately impacts Indigenous groups, people of color, and low-income communities.

Preventing further irreversible damage and protecting people, communities, and the natural environment will require:

**A rapid transition
away from fossil fuels**

**Investing in
infrastructure & systems**

WHO IS WORKING TO ADDRESS CLIMATE CHANGE?

**Frontline communities,
activists, grassroots
groups, nonprofits, & NGOs**

**Scientists &
researchers**

**Artists &
communicators**

**Businesses committed to
sustainable practices**

**National & local
governments**

Philanthropists

PHILANTHROPY TRENDS

Despite its importance, total giving toward climate change accounted for **only 2%** of overall giving in 2020.

Recently, funders have dramatically increased their contributions toward addressing the climate crisis.

4 out of 5 respondents to an Alliance Magazine survey predicted that climate change would be the dominant issue in philanthropy in the next 25 years.

HOW DONORS ARE WORKING TO ADDRESS CLIMATE CHANGE

**Research, Policy, &
Advocacy**

The [Global Commons Alliance](#) focuses on developing and achieving science-based targets for Earth's life-support systems.

Climate Justice

The [Climate Justice Resilience Fund](#) supports climate resilience solutions created by women, youth, and Indigenous Peoples.

Nature-Based Solutions

The [Global Alliance for the Future of Food](#) works to shift food and agriculture systems toward greater sustainability, security, and equity.

**Renewable, Efficient &
Clean Energy**

The [Coalition for Green Capital](#) works on policies to finance green infrastructure upgrades that could accelerate the adoption of technology.

**Biodiversity &
Ocean Ecosystems**

[Oceans 5](#) works to protect the world's oceans by establishing marine reserves and developing policies to constrain overfishing.

HOW TO GET STARTED

Work with organizations like RPA that can advise on building a portfolio of climate-related projects.

Join membership organizations & peer-learning networks.

Fund organizations whose work aligns with areas of interest.
